BIAN Certification Foundation

The Banking Industry Architecture Network **(BIAN)** is an independent, member owned, not-for-profit association to establish and promote a common architectural framework for enabling banking interoperability. Established in 2008 BIAN's goal is to establish a semantic framework to identify and define IT services in the banking industry.

Delivery:	Classroom	**Duration:**	2 days
Certificate:	Examination (voucher included)	**Language:**	English

Course Overview

BIAN model is based on a service-oriented architecture that defines standard business capabilities and supporting APIs for a broad and granular scope of banking activities. The model includes more than 1,800 unique business components and 900 business capabilities. BIAN provides an open source library of downloadable swaggers to jump start a Business Driven API strategy.

BIAN Foundation Certification demonstrates the delegate's knowledge about the BIAN Banking Architecture Foundation Standard.

Course Contents

There is complete coverage of all the Learning outcomes examined for BIAN Foundation certification:

- Introduction to BIAN
- BIAN's primary purpose and approach
- Understanding the theory of BIAN
- The BIAN service landscape
- How to apply the BIAN standard
- Assembling a representative enterprise blueprint for a bank
- An enterprise blueprint is a framework for analysis
- BIAN and TOGAF's ADM phase

The Exam is a multiple choice of 60 questions to answer in 60 minutes, closed book and has a pass mark of 70%.
